

Where personalized care & healthy, beautiful smiles meet

HELPING YOU KEEP YOUR MOUTH HEALTHY

We constantly look for ways to help keep you healthy and to provide an excellent experience for you at our dental practice. One deterrent to this is last minute cancellations or no shows. These lost appointments have consequences to everyone for the following reasons:

- If you miss your scheduled visit, you will not be able to get your treatment done in a timely manner. This can result in a worsening of your problem requiring more invasive and more costly treatment.
- Trying to reschedule these appointments can be difficult due to both your and our busy schedules.
- Many patients are on a waiting list to come in for treatment sooner. A last minute cancellation, or even worse, a “no show”, does not provide enough time to contact and get wait- listed patients into the office. This could be your situation if you cancel an appointment and need the next available opening.
- Regular care is critical to preventing dental disease.

There is a fee of \$56.00 for any appointment that is missed or cancelled without at least 48 hour notice. By keeping your scheduled appointment, you help us to live up to our mission of providing quality service to all of our patients.
